

# New feature!

## Qi - Wireless Charger

The new way of charging

**Dreaming of an easy, fast and convenient way to charge your mobile phone in your car? Stop dreaming - we have the solution.**

Use the wireless Qi charger optional for armrest model MLC310. Simply place the phone in the armrest storage compartment to charge it without need of any cables. Easy. Fast. Convenient.

**The Qi charger device is exclusively developed for the Automotive Industry.** It is Qi Certified by the Wireless Power Consortium and CE approved.

The integrated Qi wireless charger is optional and available for most car models. With a smart "plug-and-play" solution, the installation is fast and easy (approx. 60 minutes) using a 12 V cable connection kit.
