Y=Yes N=No

Typ av anpassning:

S = Standard
Sp = Special
X = X-Change

Anmärkningar:

1. MLC310 armstödet rekommenderas ej till denna bilmodell.
2. ML285 armstödet rekommenderas ej till denna bilmodell.
3. Armstödet kan begränsa åtkomligheten till förvaringsfacket alt. kollidera med mittkonsolen när stolen är justerad i sitt lägsta läge.

Anpassningar för Comfort armstöd

Bilmärke, Bilmodell	Typ	Tillverkn. År (årsmodell)	Typ av anpassning	Anmärkningar	Armstöds placering	Art. nr.		Rek. armstöd					Märkesbunden	
						LHD	RHD	ML 285	ML 385	MLC 310 (m. fack)	PUR 300	PUR 355		PUR 380

4. Passar ej stolar med justerbart svankstöd (OBS! kan passa vissa modeller om justerratten sitter på motsatt sida där armstödet skall monteras)
5. Armstödet får ej monteras ut mot dörrsidan om stolen är utrustad med sidoairbag.
6. Passar ej stolar med original monterade armstöd eller bilar med högt placerad mittkonsol /förvaringsfack som ev. kan krocka med armstödet.
7. Luckan till förvaringsfacket mellan framstolarna måste ev. avlägsnas för att inte kollidera med armstödet.
8. Kan innehålla svåra monteringsmoment som ev kräver specialverktyg -kontakta ev. din märkesverkstad om du vill ha råd eller hjälp.
9. Comfort armstöden kan monteras trots att stolen har original monterat armstöd (måste dock avlägsnas först).
10. Säljes endast som komplett sats med armstöd & fäste till båda sidor om stolen (Hö+Vä-sida).
11. Special anpassning /beställningsvara -fästet levereras endast tillsammans med armstödet.
12. Fästhål måste borras i stolsramen.
13. Om passagerarstolen är av typen helt fäll-/eller vikbar typ -så kan man endast montera armstöden på förarstolen.
14. Passar endast de modeller/ stolar som har förberedelse för original armstöd (se mont.anvisningen).
15. Vid montering av MLC310 krävs minst ca 135 mm utrymme mellan stolarna.
16. Stolar med helt fällbara ryggstöd -kommer endast partiellt kunna fällas (ung. 75%) efter att armstödet är monterat på sätet.
17. Om stolen är utrustad med justerbart svankstöd kan endast MLC310 armstödet monteras (andra armstödsmodeller krockar med justerratten).
18. Säljes endast genom märkesbundna återförsäljare.
19. Endast för passagerar- / baksättesstolarna (ej förar- & pass- stolen).
20. Obs! Äldre anpassningstyp.
21. Om bilmodellen har en dubbelsoffa kan endast armstödet PUR355 monteras.
22. Använd denna adapter om stolen har svankstöd. I annat fall välj adapter F1030-35005R/L
23. Använd denna adapter om stolen har höjdjusteringsfunktion
24. Genom att montera armstöd på stolen begränsas möjligheten att justera ner stolen i sitt lägsta läge med ca 20% pga att armstödet då krockar med bilens mittkonsol.

Armstöds placering:

HF = Höger sida förarstol

VP = Vänster sida passagerarstol

BF = Båda sidor förarstol

BB = Båda sidor - båda stolar

HF/VP = Höger sida förarstol alt. vänster sida passagerarstol

CC = Monteras mellan stolarna i bilens mittkonsoll
